

## Robins employs 23,352 people in 2002

Robins Air Force Base work force population is divided into four major categories: military and civil service employees assigned to the host Warner Robins Air Logistics Center; civilian and military employees assigned to the nearly 60 hosted units on the base; contractors who work for the base; and Non Appropriated Fund employees.

The host **Warner Robins Air Logistics Center**, which reports to Air Force Materiel Command, is the largest single organization on the base and has the predominant share of civil service employees. It currently employs 13,135 people (11,098 civil servants and 2,037 military members).

**Hosted units** include units which report to other major commands. There are currently 6,754 military and civilian employees in the hosted units. The predominant share in this category are military members. The breakout for hosted units: Air Force Materiel Command -- 11; Air Combat Command -- 2,496, Air National Guard, 1,349; Air Education and Training Command -- 53; Air Mobility Command -- 425; Air Force Special Operations Command -- 18; Air Force Reserve Command -- 1,072; AFRC part-time drill -- 647; headquarters U.S. Air Force -- 2; Air Force other -- 40; Department of Defense other -- 585; U.S. Government Agencies -- 30. Non-government agencies -- 26.

**Non-Appropriated Fund** employees -- 653. These employees support the base exchange, golf course, officers' and enlisted clubs, bowling alley and other service facilities on base.

**Contractors** -- 2,180. This number includes all contractors hired by Robins Air Force Base, whether they actually work on or off base. The numbers are down considerably from last year because of the way contractors working in the Depot Maintenance Activity Group are counted.

## Robins is Georgia's largest single-site industrial complex

**R**obins Air Force Base is the largest industrial complex in Georgia. It is situated on 8,722 acres and contains more than 14 million square feet of facilities. Robins has the longest runway in Georgia and more than 1,400 family housing units. Currently, the base employs more than 23,000 civil service workers, military members and contractors.

Robins Air Force Base is home of the Warner Robins Air Logistics Center, one of the Air Force's three air logistics centers. The center has worldwide management and engineering responsibility for the repair, modification and overhaul of the F-15 Eagle, the C-130 Hercules, the C-141B Starlifter, the C-5 Galaxy and all Air Force helicopters. The center also provides logistical support for the C-17 Globemaster III, all Air Force missiles, vehicles, general purpose computers, and avionics and electronic systems on most aircraft. In addition, the center has worldwide management and engineering responsibility for the U-2 Dragon Lady and other reconnaissance and intelligence assets.

The center supports fire-fighting equipment and vehicles of all types and is the technology repair center for life-support equipment, instruments (gyroscopes), airborne electronics and aircraft propellers.

Robins is also responsible for procurement, supply and maintenance functions for most Air Force bases along the East Coast, as well as the Atlantic Missile Test Range, Newfoundland, Labrador, Greenland, Iceland, Bermuda, the Azores and all Air Force and Security Assistance Program activities in Europe, Africa and the Middle East.

To accomplish those responsibilities, Robins Air Force Base is home to more than 62 hosted organizations, including the Air Force Reserve Command, the 116th Air Control Wing and its E-8C Joint Surveillance Targeting and Attack Radar System aircraft, the 5th Combat Communications Group, the 19th Air Refueling Group and its KC-135R Stratotankers, and the 78th Air Base Wing, which has oversight of base infrastructure and support organizations.
